CIRCULAR

Sub: To ensure availability of un-allotted vacant plot before inviting sealed bids for its allotment through auction.

It has been observed that while inviting sealed bids for auction of a particular plot, Unit Offices are not ensuring that the plot in question is un-allotted and vacant in record. Due to not ensuring the above, it has come to the notice that some times the plot already allotted is put for auction and allotted to another entrepreneur. This situation of double allotment of same plot creates embarrassing situation to the Corporation and Corporation has no other option but to refund the deposited amount to the highest bidder and to withdraw the allotment letter, in case allotment letter is also issued second time for the same plot.

The above situation has been viewed seriously by the Management and the Management of the Corporation has decided that all Unit Offices should work cautiously in future before disposal of any plot through auction by inviting sealed bids and should ensure that the plot in question is un-allotted and available vacant in record and also free from all encumbrances.

The above directions should be followed strictly and any lapses in this regard will be viewed seriously.
