Dated: 24 Jan, 2011

OFFICE ORDER (No. 1/2011)

Sub: Regarding regularization of existing weigh bridge running in Industrial plot by relaxing certain norms given in rules for weigh bridge and amendment in norms for weigh bridges sites.

The Infrastructure Development Committee of the Board of Directors (IDC) vide item (12) of its meeting held on 16.12.2010 has approved revision in existing norms for Weigh Bridges as under:

S. No.	Norms	
1	Minimum plot of size	25.00 mts (frontage) X 21.00 mts. i.e. 525.00 sq.mts
2	Minimum right of way of road	18.00 mts. and above
3	Minimum distance of Weigh Bridge plot from road junction	18.00 mts. on roads of RIICO Industrial area. If located on NH/SH guidelines of PWD for Petrol pump shall be followed.

IDC further decided that change of land use of existing Weigh Bridges constructed before 15.4.2010 may be regularized by competent committee, by relaxing distance norms from any road junction considering merit of each case and fulfilling the other norms as above. Conversion rate for regularization of existing weigh bridges shall be 3 times of prevailing DC of the concerned Industrial Area.
