No. F1 (4)/SEIAA/SEAC-Raj/Sectt/Project /Cat.7(c) B1 (419) 13-14 Jaipur , Dated: 6 MAY 2016

CORRIGENDUM

Attention is invited to this Authority's letter of even number dated 10.03.16 regarding Environmental Clearance Following corrections are made in the above mentioned E.C:

S.No.		As Mentioned in EC	Corrections now being made
1.	Subject	EC for Proposed Prahaldapura Industrial Area Project by RIICO Ltd. at Village- Prahaldapura, Tehsil- Sanganer, District - Jaipur, State-Rajasthan.	Environmental Clearance of Soniyana Industrial Area at Village: Soniyana, Gulabpura and Nakshanpura, Tehsil: Gangrar, District: Chittorgarh, Rajasthan by Rajasthan Industrial Development and Investment Corporation Limited (RIICO), Unit - Bhilwara.

File No. F1 (4)/SEIAA/SEAC-Raj/Sectt/Project/Cat(7(c)B1(419)/13-14 Jaipur, Dated: 10 MAR 2016

To,
Mr. R.K. Singh Ruhela,
Regional Manager, RIICO Ltd.
Industrial Area, Biliya,
Road No-2 Pur Road,
Bhilwara-311001, Rajasthan.

Sub:-EC for Proposed Prahaldapura Industrial Area Project by RIICO Ltd. at Village-Prahaldapura, Tehsil-Sanganer, District - Jaipur, State-Rajasthan.

Sir,

This has reference to your application dated 21.11.11 seeking environmental clearances for the above project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification 2006 on the basis of the mandatory documents enclosed with the application viz. the questionnaire, EIA, EMP and additional clarifications furnished in response to the observation of the State Level Expert Appraisal Committee Rajasthan, in its meeting held on 21.12.11, 24.07.14, 26-27.06.15 & 28.12.15

2. Brief details of the Project:

1.	Category / Item no.(in Schedule):	Cat. 7(c)B1			
2.	Location of Project	At village-Soniyana, Gulabpura & Nakshanpura, Tehsil-Gangrar, District-Chittorgarh, Rajasthan.			
3.	Project Details	S. No.	Description	Area in Hectares	Area in Percentage
		1.	Total area under scheme (As per Revenue record and informed by unit Office)	347.52	--
		2.	Area under Scheme (As per Survey Supplied by Unit Office)	347.56	--
		3.	Area Under Samsan (0.19 ha.), Temple (0.35 ha), Private land (1.04 ha.) Nallah (2.75 ha) which is not acquired by RIICO	4.33	--
		4.	Net area under Planning	343.23	100
		5.	area under industrial plots	231.92	67.57
		6.	Area under reserved for future planning	5.07	1.48
		7.	Area under Commercial	4.94	1.44
		8.	Area under roads	59.92	17.45
		9.	Area under services	7.18	2.09
		10.	Area reserved for Khatedars (Residential)	3.31	0.96
		11.	Area under STP	0.52	0.15

		12.	Area under CETP	4.00	1.17
		13.	Area under Institutional	2.08	0.61
		14.	Area under hospital	2.08	0.61
		15.	Area under Open		
		A.	Area under plantation	5.37	22.21
		B.	Area under green buffer	15.87	
		C.	Area under safe distance from nallah	0.97	
4.	Project Cost:	Rs. 285.6548 Crores			
5.	Water Requirement & Source	There will be water requirement of approximately 30 KLD including water requirement of construction workers & other construction works during the construction phase operation phase will be about 3904 KL/day. Water supply during the operation phase of the project will be provided by RIICO to the industrial units for the same RIICO will take permission from Central Ground water Authority (CGWA).			
6.	Fuel & Energy:-	The Power requirement during operation phase will be approximately 7 MVA. A substation of 33/11 kVA of AVVNL exists in Tehsil Gangrar & substation of 132 kVA is under proposal. Substation will be established at project site if required.			
7.	Environment Management Plan	S. No.	Particulars	Cost (lacs)	
		1.	Water supply system	1645.30 lacs	
		2.	Street light	737.60 lacs	
		3.	Provision for CETP	3000.00 lacs	
		4.	Arboriculture/ green belt	506.54 lacs	
		5.	Water Harvesting	103.62 lacs	
		6.	Village Amenity Development	20.72 lacs	
		7.	Skill Development of Local people	20.72 lacs	
		8.	Development of facilities for surrounding areas like drainage, roads etc.	41.45 lacs	
		9.	Monitoring budget	As per requirement	
8.	CSR Activates	Rs. 62.16 lacs			
9.	STP & CETP	there is provision of CETP at project site for which 4.00 ha. land has been kept reserved and an amount of Rs. 3000 lacs shall be provided by industries for forming trust and separate EC will be taken for the same. Only 4 Khatedars have opted for provision of residential plots and 6 have opted for commercial plots. Therefore, STP is not required septic tank/soak pit will be constructed by plot holders. For this 0.52 ha. land is reserved.			
10.	Green Belt/ Plantation	Area under plantation 5.37 ha. and area under green buffer 15.87 ha. Total = 21.27 ha. no. of trees proposed to be planted (i) along project site boundary 5600 nos. (ii) open area 5000 nos (iii) along Nallah 2000 nos. (iv) road side plantation 6000 nos.			
11.	Budgetary Breakup for Labour	Not submitted			

3. The SEAC Rajasthan after due considerations of the relevant documents submitted by the project proponent and additional clarifications/documents furnished to it have recommended

lul

for Environmental Clearance with certain stipulations. The SEIAA Rajasthan after considering the proposal and recommendations of the SEAC Rajasthan hereby accord Environmental Clearance to the project as per the provisions of Environmental Impact Assessment Notification 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

PART A: SPECIFIC CONDITIONS

I. CONSTRUCTION PHASE

- i. Consent to Establish" shall be obtained from RPCB before start of any construction work at the site.
 - ii. For conservation of electricity and to reduce energy losses the management shall ensure that the electrical voltage is stepped down from 132 KV to 33/11 KV and distributed at this level and finally brought to 440 volts.
 - iii. For better environmental safeguards, the PP shall provide sufficient number of transformers of adequate capacities for environmentally sound power distribution.
 - iv. Provision under EMP has been kept as detailed in 'Brief details of the Project'. The P.P. shall inform the RSPCB at the time of applying for CTE regarding investment on the various activities to be taken up under proposed Environment Management Plan. The details of the plan should be submitted to the RPCB at the time of applying for CTE.
 - v. As envisaged, the P.P. shall invest an amount **stated as above** for implementing various environmental protection measures.
 - vi. The P.P. shall ensure taking necessary steps on urgent basis to improve the living conditions of the labour at site. The proposed Budgetary provision should be finalized by RIICO prior to starting construction for the housing of labor within the site with all necessary infrastructure and facilities such as health facility, sanitation facility, fuel/LPG for cooking, along with safe drinking water, medical camps, and toilets for women, crèche for infants. The housing may be in the form of temporary structures to be removed after the completion of the project. Details of provisions should be submitted to RPCB at the time of obtaining CTE.
 - vii. The PP has proposed an amount of Rs. 62.16 Lacs under CSR as mentioned in 'Brief details of the Project'. The expenditure on these activities shall be reflected in the books of account when presented for auditing of accounts. The proposal should contain provision for toilets for girls in nearby schools. The proposal should contain provision for monthly medical camps, distribution of medicines and improvement in educational facilities in the nearby schools. The Detailed action plan of CSR activities shall be submitted by the PP to RSPCB at the time of applying for "Consent to Establish".
 - viii. Green belt/Landscaping should be developed in 5.37 ha. and area under green buffer should be 15.87 ha. as proposed.
 - ix. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry / unit / project proponent. That the grant of this E.C. is issued from the environmental angle only, and does not absolve the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete responsibility, to comply with the conditions laid down in all other laws for the time-being in force, rests with the industry / unit / project proponent.
 - x. The PP shall ensure that, the Green Roof Technology is implemented and put in place.
 - xi. The PP shall provide a System for composting of MSW within the campus and its use/disposal.
 - xii. The PP shall provide a System for BMW management.
 - xiii. The PP shall take measures to ensure 10% reduction of overall power demand which shall be met by solar system including the provision of solar water heating /chilling etc.
 - xiv. The PP shall review and specify employment opportunities (direct /indirect numbers) to local persons.
- ml*

- xv. The PP shall ensure implementation of fire fighting plan as approved by the UNN, Udaipur.
- xvi. Provision shall be made for the housing of construction labor within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- xvii. All required sanitary and hygienic measures shall be in place before starting construction activities. The safe disposal of waste water and solid waste generated during the contraction phase shall be ensured.
- xviii. Adequate drinking water facilities shall be provided for construction workers at the site.
- xix. Provisions shall be made for the supply of fuel (kerosene or cooking gas); utensils such as pressure cookers etc. to the laborers.
- xx. All the laborers engaged for construction shall be screened for health and adequately treated before engaging them to work at the site.
- xxi. For disinfection of waste water, appropriate tertiary treatment shall be given.
- xxii. All the topsoil excavated during the construction shall be stored for use in horticulture/landscape development within the project site.
- xxiii. Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of the people, only in approved sites with the approval of competent authority.
- xxiv. Soil and ground water samples will be tested to ascertain that, there is no threat to the ground water quality by leaching of heavy metals and other toxic contaminants.
- xxv. Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate water courses and the dump sites for such material must be secured so that they do not leach into the ground water.
- xxvi. The diesel generator sets to be used during the construction phase shall be low- sulphur-diesel type and shall conform to Environment (Protection) Rules for air and noise emission standards.
- xxvii. Vehicles hired for bringing construction material and laborers to the site shall be in good conditions and shall conform to applicable air and noise emission standards and shall be operated during non-peak/approved hours.
- xxviii. Ambient noise levels shall conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase.
- xxix. Fly ash shall be used as building material in the construction as per the provisions of Fly Ash notification of September, 1999 and amended as on August, 2003 (The above condition is applicable only if the project is within 100 km of Thermal Power Station).
- xxx. Ready mixed concrete must be used in building construction.
- xxxi. Storm water control and its re-use as per CGWA and BIS standards for various applications.
- xxxii. Water demand during construction shall be reduced by the use of pre-mixed concrete, curing agents and other best practices.
- xxxiii. Permission to draw ground water, if any, shall be obtained from the CGWA/CGWB prior to construction/ operation of the project.
- xxxiv. Separation of grey and black water shall be done by the use of dual plumbing line for separation of grey and black water.
- xxxv. Treatment of 100% grey water by decentralized treatment shall be done.
- xxxvi. Fixtures for showers, toilet flushing and drinking shall be of low flow either by use of aerators of pressure reducing devices or sensor based control.
- xxxvii. Use of glass may be reduced by up to 40% to reduce the electricity consumption and load in air-conditioning. If necessary, use high quality double glass with special reflective coating windows.
- xxxviii. Roof shall meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.
- xxxix. Adequate measures shall be taken to reduce air and noise pollution during construction keeping in mind CPCB norms on noise limits.

lud

- xl. Opaque walls shall meet prescriptive requirement as per Energy Conservation Building Code for all air-conditioned spaces, whereas, for non- air-conditioned spaces, by use of appropriate thermal insulation material to fulfill the requirement.
- xli. A First Aid Room will be provided in the project both during construction and operation of the project.
- xlii. Any hazardous waste generated during construction phase shall be disposed off as per applicable rules and norms with necessary authorization of the Rajasthan Pollution Control Board.
- xlili. The approval of the competent authority shall be obtained for structural safety of the buildings due to earthquake, adequacy of fire fighting equipments, etc as per National Building Code 2005 including protection measures from lightening etc.
- xliv. Regular supervision of the above and other measures for monitoring shall be in place throughout the construction phase, so as to avoid nuisance to the surroundings.
- xlv. Approved plan from competent Authority, should be obtained.
- xlvi. Guidelines issued by concerned ministry for water scarce area ,should be followed.
- xlvii. Ground water table to be shown along with source. Besides, permission of competent authority is obtained for withdrawal of ground water.
- xlviii. The PP shall abide by the provisions relating MSW handling and management rules.
- xlix. Review and revise the requirement of DG set capacities for 100% power back up through to optimization of power back up in case of power failure and emergency.
 - 1. No "A" category projects(as per schedule of EIA Notification Dtd 14th Sept. 2006) would be allowed in the Industrial area. All "B" Category units should be zero discharge units and should have their own self sufficient ETP. The treated waste water should be reused in their own process/premises. Any violation by Industry in this regard would be the responsibility of RIICO for taking action. The industries proposed to be set up in the industrial area are stone/marble industry, general industry and textile industry (non water intensive).No textile process house /dye house and no water intensive unit should be installed in the proposed industrial area.
 - li. As proposed, the CETP (if and whenever provided) for units other than "B" category industries would also be based on zero discharge status. Such CETP would take separate EC. The location of the CETP would be such that the waste water from the connected industries can be conveniently collected through closed conduits and brought to the CETP and the treated water can be conveniently sent back to individual industries for reuse.
 - lii. The water requirement during operational phase has been stated to be 3904 KLD. For which, the necessary permission of water supply from CGWA should be submitted to RSPCB at the time of applying for CTE. At the time of applying for CTE the PP should get it confirmed from RSPCB that no illegal bore well exists in the proposed site.
 - liii. Potable water supply from suitable legal source should be ensured by RIICO prior to allotment to the Industries.
 - liv. Use of Sensor based urinals/tabs for commercial areas will be made.
 - lv. For Horticulture, sprinkler system will be followed.
 - lvi. For Landscaping, use of native species will be there.
 - lvii. A copy of the EIA /EMP Report of this Project shall be submitted by the consultant to the Q.C.I.

II OPERATION PHASE

- 1- An independent expert shall certify the installation of the Sewage Treatment Plant (STP) and a report in this regard shall be submitted to the RPCB, before the project is commissioned for operation. Discharge of treated sewage shall conform to the norms & standards of the Rajasthan State Pollution Control Board.
- 2- For conservation of electricity and to reduce energy losses the management shall ensure that the electrical voltage is stepped down from 33 KV to 11 KV and distributed at this level and finally brought to 440 volts.

W

- 3- Rain Water harvesting (RWH) for roof run-off and surface run-off, as plan submitted shall be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The RWH plan shall as per GOI manual
- 4- The solid waste generated shall be properly collected & segregated before disposal to the City Municipal Facility. The in-vessel bio-conversion technique may be used for composting the organic waste.
- 5- Any hazardous waste including biomedical waste shall be disposed of as per applicable Rules & norms with necessary approvals of the Rajasthan State Pollution Control Board.
- 6- The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open space inside the plot shall be suitably landscaped and covered with vegetation of indigenous variety.
- 7- The PP would provide five no. of piezometric wells at suitable locations in the industrial area and quarterly monitoring of these wells water would be started before allotment of plots to the industries.
- 8- The D. G. sets with acoustic enclosures to be operated with stack height as per RPCB norms.
- 9- Incremental pollution loads on the ambient air quality noise and water quality shall be periodically monitored after commissioning of the project.
- 10- Application of solar energy shall be incorporated to illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating. A hybrid system or fully solar system for a portion of the apartments shall be provided.
- 11- Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking shall be fully internalized and no public space shall be utilized.
- 12- Ambient air quality monitoring stations shall be set up in consultation with RPCB in the down wind direction as well as where maximum ground level concentration of PM₁₀ & PM_{2.5}, SO_x, NO_x, CO, CO₂, are anticipated.
- 13- A Report on the energy conservation measures confirming to energy conservation norms finalized by Bureau of Energy Efficiency shall be prepared incorporating details about building materials & technology, R & U Factors etc. Quantify energy saving measures.
- 14- Proper system of channelizing excess storm water shall be provided.
- 15- The power factor shall be maintained near unity.
- 16- A balance sheet certified by a Authorized Financial Expert to clearly indicate the provision made / amount spent for EMP/ERP/CSR/ Safety/ Legal Obligations etc to be enclosed in the six monthly report to be submitted to RPCB/SEIAA.
- 17- Trees and shrubs of local species shall be planted to allow habitat for birds with appropriate distance from the boundary.
- 18- Re-cycled water to match standards for cooling water system.
- 19- Adequate measures shall be taken to prevent odor from solid waste processing and STP.
- 20- Use of Sensor based urinals/tabs for commercial areas will be made.
- 21- For Horticulture, sprinkler system will be followed.
- 22- For Landscaping, use of native species will be there.
- 23- There will be no restriction of movement for the villagers.
- 24- Trees and shrubs of local species shall be planted to allow habitat for birds with appropriate distance from the boundary.
- 25- All commitments made during the public hearing and during the presentation at SEAC should be adhered to in a phased manner.
- 26- The SEIAA, Rajasthan reserve the right to add new conditions, modify/ annual any condition and/or to revoke the clearance if implementation of any of the aforesaid condition/other stipulations imposed by competent authorities is not satisfactory. Six monthly compliance status report of the project along with implementation of

W

environmental measures shall be submitted to MoEF, Regional Office, Lucknow, SEIAA, Rajasthan & RPCB, Jaipur.

PART – B. GENERAL CONDITIONS

- i. The environmental safeguards contained in Form 1-A shall be implemented in letter and spirit.
- ii. Officials of the RPCB, who would be monitoring the implementation of environmental safeguards, shall be given full cooperation facilities and documents/data by the PP during their inspection. A complete set of all the documents submitted to SEIAA, Rajasthan shall be forwarded to Rajasthan State Pollution Control Board.
- iii. In case of any change(s) in the scope of the project, the PP requires a fresh appraisal by SEIAA/SEAC, Rajasthan.
- iv. The SEIAA/SEAC, Rajasthan reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environment (Protection) Act-1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- v. All the other statutory clearances such as the approvals for storage of diesel from the Chief Controller of Explosives, Fire department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (protection) Act, 1972 etc. shall be obtained, as may be applicable, by PP from the competent authority.
- vi. The PP shall ensure advertising in at least two local news papers widely circulated in the region, one of which shall be in vernacular language that, the project has been accorded environmental clearance and copies of the clearance letters are available with SEIAA, Rajasthan and the Rajasthan State Pollution Control Board and may also be seen on the website of the Board at www.rpcb.nic.in. The advertisement shall be made within 7(seven) days from the date of issue of the environmental clearance and a copy shall also be forwarded to the SEIAA, Rajasthan and Regional Office, Jaipur(S) of the Board.
- vii. These stipulations would also be enforced amongst the others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification' 06.
- viii. Environment clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition(Civil) No. 460 of the year 2004 as may be applicable to this project.
