OFFICE ORDER (44/2014)

Sub: Policy for deposition of restoration/transfer/sub-division charges along with the application as an advance deposit.

While discussing item (14) by IDC in its meeting held on 07.10.2014 the Committee took a policy decision to enable a rule for deposition of restoration/ transfer/sub-division charges along with the application to be calculated on the basis of prevailing allotment rate and prevailing rules of RIICO. This amount will be deposited as an advance till final disposal of application. The committee also decided that in case of rejection of such application, the amount so deposited, will be refunded without interest to the concerned applicant.

Pursuant to the said decision of the IDC, henceforth, an applicant will be required to deposit restoration/transfer/sub-division charges (as the case may be) with the application and same will be deposited as an advance from customer. However, no legal right would be created in favour of applicant merely on deposition of such amount.

The above provision shall be inserted suitably in the RIICO Disposal of Land Rules, 1979 in respective rules.
