

RIICO Accelerates Landmark Defence Sector Investment in Rajasthan, Boosting Global Appeal for Industrial Growth

The Rajasthan State Industrial Development and Investment Corporation (RIICO), the flagship agency of the Government of Rajasthan for industrial development, has swiftly enabled the establishment of a cutting-edge production facility by Albatross Project GmbH, a renowned German company, in the Industrial Area of Tinwari, Jodhpur. This remarkable achievement highlights RIICO's relentless commitment to driving industrial growth and reinforces its pivotal role as a catalyst in attracting global investments to the state.

RIICO's proactive support has been instrumental in bringing Albatross's cutting-edge manufacturing operations to Rajasthan. Through a series of strategic initiatives, RIICO ensured a seamless journey for the company from land allocation to project initiation:

- **Site Visit and Land Allocation:** RIICO organized an exclusive site visit for Albatross representatives, presenting a range of suitable land options within the Industrial Area in Tinwari, Jodhpur. Following the identification of the ideal plot, RIICO ensured its prompt availability on the e-auction portal, allowing Albatross to secure the land without delays.
- **Priority Offer Letter Issuance:** In recognition of the strategic significance of the project, RIICO expedited the issuance of the offer letter, enabling the company to fast-track its operations and swiftly initiate construction of the new facility.
- **High-Level Engagement:** RIICO facilitated a high-profile meeting between Albatross representatives and the Hon'ble Chief Minister of Rajasthan during the October 2024 Roadshow in Munich, Germany. This pivotal interaction underscored the state's dedication to fostering international partnerships and making Rajasthan a preferred destination for global investors.

About Albatross Projects GmbH - Albatross Project GmbH is the fourth-largest global provider of EMC (Electromagnetic Compatibility) and AMS (Aerospace and Military Systems) testing solutions, with a strong operational presence across Europe, the USA, China, and India. The company's new facility in Jodhpur will focus on manufacturing advanced **RF Chambers** and **Metal Panels** tailored for the defence, aerospace, and medical devices sectors. With a planned investment of ₹42 Cr and a dedicated 10,000 sqm land parcel, Albatross is set to generate 25 new jobs in the region, further contributing to the local economy.

Mr. Inderjeet Singh, Managing Director, RIICO stated, "RIICO remains committed to creating a world-class industrial ecosystem in Rajasthan. The collaboration with Albatross highlights our dedication to attracting global investors and showcasing Rajasthan as a prime destination for industrial expansion. This partnership represents a significant step in making Rajasthan a key player in the global industrial and defence sectors."

RIICO's Vision for Economic Growth: RIICO continues to be at the forefront of driving economic growth in Rajasthan, providing cutting-edge infrastructure, streamlined investor facilitation, and a business-friendly environment that enables industries to thrive. Through initiatives like these, RIICO not only supports the growth of local businesses but also strengthens Rajasthan's position as a key player in the global industrial and defence sectors.

With projects like Albatross, RIICO is playing a pivotal role in attracting investments, catalysing at very fast pace, generating employment, and contributing to the state's overall economic prosperity.
