OFFICE ORDER

**Subject: Implementation of GPS Tracking System for Effective Monitoring of Door-to-Door
Cleaning Work in Industrial Areas.**

In order to ensure effective monitoring, transparency and proper supervision of the door-to-door cleaning work being carried out in various Industrial Areas, it has been decided that a GPS-based tracking system shall be implemented for all vehicles/equipment deployed for door-to-door cleaning activities.

Accordingly, all Unit Heads are hereby directed to ensure the following:

1. GPS tracking is installed and functional in all cleaning vehicles.
2. Vehicle movement and route coverage are monitored regularly through the GPS system.
3. Plot-to-plot movement of the cleaning vehicle and coverage of the designated cleaning area shall be duly monitored through the GPS tracking system to ensure that the vehicle is actually visiting and covering the assigned plots.
4. Daily monitoring of GPS records is carried out to ensure proper coverage of the designated cleaning area.
5. Any deviation, non-deployment or non-functioning of the GPS system is immediately brought to notice and necessary action is taken as per the terms of the work order.

The above directions shall be complied with strictly and with immediate effect.

This issues with the approval of the Competent Authority.

(Ajay Gupta)
General Manager (Civil)
