# HARMONIZATION OF CATEGORIZATION OF INDUSTRIES IN THE STATE

(Red / Orange / Green / White)

### Harmonization of categorization of industries in the State

Classification of industrial sectors and processes/ activities/ facilities/ projects etc as Red, Orange, Green and White, is primarily done to facilitate uniformity and objectivity in streamlining enforcement mechanism.

In order to harmonize the criteria for categorization based on the Pollution Index (PI) developed by CPCB, the State Board from time to time, issues categorization of industries and other processes operational in the State. This PI is a function of water pollution, air pollution, hazardous waste generation, fuel consumption and amount of Wastewater generation in the unit.

The purpose of categorization is to ensure that the industry is established in a manner consistent with the environmental objectives and to prompt industrial sectors to adopt cleaner technologies, ultimately resulting in generation of minimum pollutants.

With this aim, the State Board vide its orders dated 02.06.2020, 28.07.2020, 21.01.2022, 22.12.2022, 22.02.2023, 21.06.2023, 20.12.2023 & 29.12.2023 and notifications issued by Department of Environment & Climate Change, Govt. of Rajasthan dated 26.05.2016, 16.03.2023 & 31.07.2023 categorization for sectors have been stipulated in the State into: - Red, Orange, Green, White Category.
